Featured Talk: The Shroud of Turin

The Shroud of Turin is the proposed burial cloth of Jesus Christ that He was laid in when He was taken down from the cross and put into the borrowed grave. It is one of the most intriguing ancient artifacts in the world. It has undergone countless thousands of hours of top-level scientific scrutiny yet remains nothing short of an unexplainable anomaly to those who seek to discredit it. Dave Glander's "Shroud of Turin" presentation is one of the most up-to-date in the country and includes a **very rare full-sized replica**.

UPCOMING FIELD TRIPS

February 21, 2026 | Oreana Geology & Fossils

Collect petrified wood and seashell fossils at two stops near Oreana! There will be a small amount of hiking in hilly desert terrain. The second stop will need higher-clearance vehicles, but we will be able to see a beach on a hilltop and collect fossils! This is a half to full day trip, if you stay for one or two stops. Bring a lunch, water, and fossil collection tools! As usual, this field trip will be weather dependent, so stay tuned to FB or email in case!
